

This year, more than ever, it will be important for educators to connect with fellow educators, engage in continual learning, and share resources and best practices. That's why the Ohio's New Educators (ONE) is excited to offer Beyond the Classroom, a virtual learning series where you can connect with, learn from and share ideas among fellow New Educators and ONE leaders from across Ohio.

Run a Smooth Classroom Using Routines and Transitions

August 27, 6 - 7:30 P.M.

September 26, 10:30 A.M. - Noon

One of the best ways to effectively manage your classroom is to teach students how they are expected to behave in *your* classroom.

During this session, we'll help you establish a classroom management framework that focuses on routines, transitions and replacement behaviors, and also addresses the importance that your consequences align to your school's PBIS initiatives.

You will learn to use modeling and simple three-step directions to ensure that every student is equipped to focus on the task at hand. This framework will allow you to resolve student uncertainties, mitigate challenging behavior and attain your desired outcomes by mapping out procedures and routines you can implement with your students. During the session you will be able to collaborate with other participants to visualize how you want your classroom to run and to work on developing your own planning guide.
