## Survey on Teacher Training and Experiences with Dual Diagnosis

Dear Teacher,

Researchers at Texas Tech University are currently seeking input from special education and general education teachers about their training and experiences in working with students with dual diagnosis. The term dual diagnosis is used to describe students with intellectual and developmental disabilities and mental health conditions.

This study should only take **7-10 minutes** to complete, and you can stop at any point and skip any questions you prefer not to answer. There are no foreseeable risks to your participation. To protect your confidentiality, you will not be asked to provide your name or any identifying information.

**We are asking you to complete our survey. If you are interested in participating in this study, please click this [link](#) to access the survey.**

If you have any questions about this research, please contact Dr. Stacy Carter ([stacy.carter@ttu.edu](mailto:stacy.carter@ttu.edu)). For more information contact the Texas Tech Human Research Protection Program Office of the Vice President for Research, Texas Tech University, Lubbock, TX 79409, or you can email your questions to [hrpp@ttu.edu](mailto:hrpp@ttu.edu) or call (806) 742-2064.

Thank you for your time and support.
