

2022 - A New Year with New Opportunities and Challenges!

At the end of January, 2022, the “pause” on Federal Student Loan repayment ends and borrowers will resume making monthly payments they haven’t made for 23 months. But 2022 promises new hope for hundreds of thousands of NEA Members paying on Federal Student Loans.

In just one year, the Biden Administration has forgiven over \$12.5 BILLION of student loans for more than 640,000 borrowers and has streamlined the process for new borrowers. For you, there may be a ONCE-IN-A-LIFETIME option to achieve relief under the Temporary Expanded Public Service Loan Forgiveness Program (TEPSLF) but YOU MUST ACT BEFORE OCT. 31, 2022 to take advantage.

NEA Member Benefits will share more information about this throughout January. To learn more, simply use this ZOOM link to join any (or all) of the 10 ZOOM sessions below, each scheduled for one hour:
