ONE
Ohio's New Educators

THE EDUCATORS OF **TOMORROW** NEED OUR LEADERSHIP **TODAY**

As public school employees, we must make our voices heard to ensure that every student has a quality education. By belonging to ONE, Ohio Education Association/National Education Association, and our local association, we can harness the power of our collective voice to advocate for ourselves and our students.

Leadership begins with commitment.

Membership in Association demonstrates your support for public education. OEA/NEA and your local association are committed to our collective interests and advocate for professional and licensing standards, healthy and safe learning and working spaces, student-to-educator ratios, and community support for our public schools and employees.

Membership keeps you connected.

Your Association routinely provides you with what's happening locally, statewide, and nationally. From out-of-state meetings of the NEA, OEA's Summer Leadership Academy, and regional training opportunities, your associations provide year-long opportunities to network with other public school employees. ONE promotes and supports member to member connections across the state, providing you an excellent source of new perspectives and ideas to help you in your role."

There is strength in numbers.

Your Association's strength comes from the dedication and activities of its membership. ONE members learn how to organize and engage fellow members on the issues that impact your students' success, including working conditions, professional development, competitive wages, quality benefits, and fair contracts. "

It's sound economics.

The benefits offered are worth much more than the cost of membership. Join our network of early career and support professionals today to ensure that every new school employee can thrive at work. By supporting the development and retention of early career professionals, we can work together to make sure that every child both today and tomorrow receives a great public education."

Become a leader and speak out for your profession.
